What's up guys it's BT! I hope you are super inspired by these Kontakt instruments and sample/preset packs. If you enjoy it, join fellow sonic adventurers such as yourself over at BT Music.com. We've got all kinds of other free stuff, sample packs, cheat sheets, patches and sound libraries.

There's a plugin area with the software I've made as well. You're sure to find some powerful inspiration throughout!

This content is 100% royalty-free so all the sounds, programing and elements can be used in your tracks, commercial or otherwise. However, the individual sounds, samples, wavetables and Kontakt instruments themselves are not to be re-distributed or re-sold in whole or in part.

Thanks for checking it out and happy composing!

- *The Kontakt instruments require Kontakt 6 or Higher*
